

Scalability & Future Plan

Date	3 July 2026
Team ID	XXXXXX
Project Name	AI Powered Debt Relief & Financial Recovery Platform
Maximum Marks	1 Mark

Scalability & Future Plan:

This document outlines how the current project solution can be scaled to handle larger user bases, increased data loads, or extended features in the future. It also captures the team's roadmap for enhancing and evolving the project beyond its current state.

Current System Limitations:

S.No	Limitation	Impact	Priority to Address
1	Uses SQLite database for development.	Limited scalability for large datasets.	High
2	AI depends on Gemini API availability	Fallback module used if API is unavailable	Medium
3	Application is not yet cloud deployed	Acessible only in Local environment	High

Scalability Plan:

S.No	Scalability Aspect	Current State	Proposed Upgrade / Solution
1	User Load	Supports small number of users.	Depoly on cloud with load balancing
2	Data Storage	SQLite database.	Upgrade to PostgreSQL/MySQL

3	Performance	Local execution.	Optimize APIs and use caching techniques
4	Security	JWT authentication	Add Multi Factor Authentication and HTTPS

Future Roadmap:

Phase	Planned Feature / Enhancement	Target Timeline	Expected Impact
Phase 1	Cloud deployment(AWS/Render/Azure)	1 week	Improve accessibility and scalability
Phase 2	Advanced AI Financial Recommendations	1 week	Better accessibility
Phase 3	Multi-bank integration	1 week	Automated loan synchronization
Phase 4	Advanced AI financial advisor	1 week	Smarter debt recovery guidance
